Online Portfolio: www.beretis.com

I am a dedicated professional, recognized for my strong work ethic and unwavering reliability. My approach is performance-oriented, and I am deeply committed to ongoing personal and professional growth. I actively seek opportunities to develop new skills, particularly in areas that blend creativity and technology. Outside of work, I immerse myself in artistic endeavors, including graphic design and web/app development, and I have a keen interest in all things tech related. Additionally, I enjoy engaging in hobbies like gaming and practicing martial arts. I am enthusiastic about embracing new challenges and am fully committed to excelling in any role I undertake.

EMPLOYMENT HISTORY:

Numee Games – Creative Game/Website Development May 2023 – Oct 2023

- Assisted with the development of creative campaigns for brands, to advertise in metaverse games across Roblox and Fortnite.
- Contributed ideas to the teams on high volume game integrations that have synergies with the overall campaigns brand strategy.
- Development of microsites that helped with the amplification of various campaigns.
- Frontend technologies used: HTML, JavaScript, CSS, NodeJS, React/NextJS

ReelNRG – Junior Web Developer July 2020 – May 2023

- Assisted Web Developers in the building and maintenance of websites developed both in HTML5 WordPress for the microsites of the games they published.
- Gave my user experience knowledge to help develop the user journeys across the websites.
- Assisted in the development and testing of the games they distributed globally online via the platform they had built.
- Assisted with the preparation and creation of game assets into various image formats.
- Contributed to game development and testing.
- Frontend technologies used: HTML, JavaScript, CSS, PixiJS, jQuery, Bootstrap, NodeJS, Git repositories.
- Backend technologies used: MySQL, MongoDB, Java, Springboot.

ACCOMPLISHMENTS

Cadets

Enlisted in the cadets during the 9th year of school where I learned discipline by spending time in military-like environments.

National Space Centre Game Jam

At the end of my first year in college I took part in a game jam for the National Space Centre where I had to join a team of students from different courses in my college to design a space game where I was tasked with designing different types of currencies, logos and animations using Photoshop.
